10-28-1999

Dear Sir

I am 51 years old 2-'99 NOV 2 A10:24 I had Polio at 1 year old, wear brace on left leg. I got through life fairly well untill approximately 10 yrs. ago. My back is just about completely worn out due to way I've had to walk over years, and I also have arthriteous and am bad sway back, at near end of spine my back curves 30 degrees out. So I became addited to pain pills which side effects damaged my liver. I was near thinking sucide when I was introduced to the Methodone Maintance Program, which was a miricle that I know saved my life & enabled me to start enjoying life again.

I live 110 miles from Nashville & have to drive once a week. I have never had a dirty urine screen since I've been on the program. I'm on a very low income & it cost $84.00 weekly just for the methodone not counting gas expense

So you can see how getting once a month supply of Methodone would greatly help me I would appreciate any help or info. I could get.

98N0617 Thanks, Gary Van Cleave
